There was a girl I knew
She said she cared about me
She tried to make my world
The way she thought it should be

Yeah, we were desperate then
To have each other to hold

But love is a long, long road
Yeah, love is a long, long road

There were so many times
I would wake up at noon
Yeah, with my head spinning 'round
I would wait for the moon

And give her one more chance
To try and save my soul

But love is a long, long road
Yeah, love is a long, long road

Yeah, it was hard to give up
Some things are hard to let go
Some things are never enough
I guess I only can hope

For maybe one more chance
To try and save my soul

But love is a long, long road
Yeah, love is a long, long road
